

# STOCK MARKET

Challenge

## What would you do with \$500,000?

### Compete for best Return on Investment in the JA Stock Market Challenge!

#### How it works:

- You will trade for '60 days' in teams of 4 (1 minute = 1 day).
- You have to use the information, alerts and newsletters to make decisions on how to manage your portfolio.
- The group with the highest net worth at the closing bell WINS!

The JA Stock Market Challenge is a technology based simulation of the stock market in which every 60 seconds represents a day of trading. Beginning with a hypothetical account balance of \$500,000, students experience the rush of Wall Street with none of the risk! The stakes are high and the competition is fierce!
