- Tour refunds will be made in full in the event it is cancelled by BPA. Refunds will not be made due to inclement weather.
- Refund requests must be submitted via the conference registration system at <https://register.bpa.org>.

Step 1: Conference Registration

- Log on at <https://register.bpa.org>.
- Select the **Conferences** tab in the chapter portal and locate **2023 National Leadership Conference**.
- There are separate registration processes for advisors, students, and guests/chaperones. Select **Register Advisors** or **Register Students**. *After completing registration for one attendee group, complete the process for the other group(s) before submitting the chapter's registration.*
- Select the members attending the conference. Chapter members will appear on this list.
- Click the **Continue** button after checking each applicable member. For more than one member, you will complete the registration process for one member at a time.
- On the **Verify** screen, select the registration rate, badge title, and any other requested information. *Complete the special accommodations section for anyone with a disability.*
- On the **Competitive Events** screen, select the competition(s) in which the student can participate.
- On the **Items** screen, select any appropriate items:
 - Certification Labs:** 1-day or 2-day passes to the Certiport and YouScience certification labs. A student whose competition has a certification alignment does not need a pass unless the student wants to take additional certification exams.
 - Merchandise:** List of BPA products.
 - T-shirt:** Pre-order the conference T-shirt for your participants or for members not attending NLC.
 - Special Olympics:** Register for the Special Olympics Walk fundraiser.
- The **Volunteer** and **APG** screens list conference support positions. *Advisors are required to select at least one conference support assignment from the Volunteer or APG sections.* Guests/chaperones and students may voluntarily sign-up for a conference job, selecting from the options on the **Volunteer** or **Internship** screens.
- The **Tour** screen lists excursions available at an additional cost.
- The **Confirmation** screen lists selections for that individual before moving on to the next member.
- Select **Finish** after completing and verifying all member registrations.

Step 2: Hotel Reservation

You will not be able to submit the chapter registration without creating a housing reservation for attendees. *Reservations must be submitted prior to leaving the registration system or they will be deleted.* After April 8, contact the hotel directly for any reservation changes.

- Select the **Housing** button.
- Enter the chapter's arrival and departure dates. Arrival and departure dates can be changed on the housing screen by selecting **Change Arrival and Departure Dates**.
- Select the members who will be rooming together; then select the room number and room type for those members. Select the **Add to Room** button.
- Repeat these steps until all attendees are assigned to a room. *If an attendee will be rooming with another chapter, that chapter must add your member to its housing reservation before your chapter can submit the housing reservation.*
- Verify the accuracy of costs for each attendee. Report any issues to support@bpa.org.
- After every attendee has been assigned to a room, select the **Submit Reservation** button.

Rooms for Attendees from Multiple Chapters

Chapters are permitted to share rooms with other chapters. To complete a mixed reservation:

- Chapters must determine who will be responsible for making the reservation.
- The chapter booking the reservation will select the **Housing** button in the reservation system. Then select the **Add Additional Individual** button found on the reservation page. Locate the other attendee's name using the appropriate state and chapter.
- The chapter NOT booking the mixed reservation must wait until the other chapter completes the housing reservation before being able to complete its own registration and housing reservations. Any students in mixed housing reservations will appear on the invoice for the chapter making the reservations, so the other chapter must make arrangements for payment.
- If all your chapter members are sharing rooms with members from other chapters and you are

booking NO rooms, you must wait until the other chapter complete the housing reservations before you can complete your chapter's conference registration. Any students in mixed housing reservations will appear on the invoice for the chapter making the reservations, so the other chapter must make arrangements for payment.

Participants are required to stay at an official conference hotel. The hotel reservation deadline is April 1. Non-compliance is cause for disqualification. Participants confirming a reservation with BPA but failing to arrive to fulfill the reservation without proper cancellation will be responsible for all no-show fees. BPA reserves the right to collect fees from schools directly if a no-show fee result in a direct expense to BPA. BPA room rates are not guaranteed after this date. Housing payments must be made directly with the hotel. For help with existing hotel reservations before April 1, contact Jonathan Smith at jsmith@bpa.org.

Step 3: Finalize Your Registration

- Select the **Accept Disclaimers** button. Carefully read all disclaimers and select the appropriate checkboxes before selecting **Confirm**.
- Select the **Status** checkbox next to each member record that you wish to be on the same invoice. To include all records on one invoice, use the **Select All** button.
- Click **Submit Registration**, which will generate an email confirmation to you, your state advisor, and the BPA National Center.
- Print a copy of the conference registration and hotel reservation invoices.
- Your state advisor will approve contest selections.
- Repeat the steps above until all registrations have been invoiced (*only applicable when multiple invoices are needed*).

Get Involved

Officer for a Day

AN INCREDIBLE OPPORTUNITY FOR MIDDLE LEVEL MEMBERS. How would you like to get an upclose look at the work of an executive officer? Middle level members are invited to apply to be an “Officer for a Day” with the unique opportunity to shadow a member of the executive council during the conference. See firsthand what it is like to be a BPA student leader. Applications are due April 1 at 11:59 pm ET. Apply at <https://bpa.org/nlc/ofad/>.

National Anthem Contest

OH SAY CAN YOU SING? Showcase your vocal talents by singing the national anthem at the conference opening session. Soloists and groups are invited to submit a video of their best a cappella performance of “The Star-Spangled Banner” for a chance to sing onstage. Contest entrants must be BPA members planning to attend the conference. Entries are due March 15 at 11:59 pm ET. Apply at <https://bpa.org/nlc/national-anthem-competition/>.

Student Volunteers and Interns

VOLUNTEER PROGRAM

The volunteer program provides students with opportunities to contribute to the conference success, gain valuable experience, and see the conference from a unique perspective. Volunteer assignments include assisting with registration, workshops, competitive events, service activities, exhibitor showcase, BPA store, and more. Chapter advisors should indicate students interested in volunteer opportunities while completing the online conference registration.

INTERNSHIP PROGRAM

The internship program is a unique opportunity for students with specialized interests to work with mentors in the areas of event production, finance, marketing communication, merchandising, and videography/photography. Interns have an opportunity to apply their skills and gain practical career experience. The number of internships is limited, and students not selected for internships will be matched with volunteer opportunities. Chapter advisor approval is required for student internships. Apply at <https://bpa.org/nlc/volunteer-internship-programs/> by April 5.

Competitive Events

Student members qualify to compete in national-level events based on BPA state association requirements and should register for the appropriate events during the registration process.

Deletions & Substitutions

Substitutions for events requiring pre-submissions of materials must be completed prior to Saturday, April 1 because students for these events must be registered to compete before their pre-submission is received. Event deletions and substitutions may be made by after registration has closed by contacting Sheila Morris, Director of Education & Professional Learning, at smorris@bpa.org or (614) 407-7480. These changes must be requested by Friday, April 7. Changes after this date must be made on-site at the competitive events headquarters by the state advisor prior to 6:00 pm PT on Wednesday, April 26.

Schedule Conflicts

Schedule conflicts can be resolved by chapter advisors in the competitive events headquarters at the Hilton Anaheim prior to 6:00 pm PT on Wednesday, April 26. Conflict resolutions are made on a first-come, first-served basis. Only those conflicts caused by two concurrently scheduled BPA competitive events will be resolved. Judged events cannot be re-scheduled outside of the scheduled event times.

Reminders

- Professional dress, conference name badge, and wristband must be worn to all competitive events.

- Only event competitors and authorized personnel will be allowed in event locations. Students may be disqualified if their advisor is in the event room and is not an administrator, proctor, or authorized competitive events official.
- A “contestant number” is required for many events. Students’ eight-digit membership numbers are found in the chapter member list in the BPA registration system at <https://register.bpa.org>. The member list can be obtained using “Membership Download” on the Students tab.
- Paper copies of test booklets for application and objective events will be provided, but competitors will electronically upload their project(s) on-site.
- Do not schedule tours or meals during students’ contest time. Students competing in a judged or hands-on event will need to keep their schedule free to potentially compete in the finals of that event. Tour refunds are not given due to conflicts with scheduled events or finals.
- Refer to the WSAP Guidelines for information on contestants’ use of their own computers.

Awards

For each division, the top ten scores in each event or all finalists (whichever is greater) will be recognized on stage with medals. The top three individuals or teams will receive plaques. **Awards must be claimed at the 2023 National Leadership Conference.** If you will not attend the Awards Finale, you must make arrangements with someone else to claim the award on your behalf. **The last opportunity to claim awards is Sunday, April 30 between 7:00 and 11:00 am PT in the Palisades room on the 4th floor of the Hilton Anaheim.** Awards will not be mailed after the conference.

A Student's Guide to Blood Donation

Why Should I Give Blood?

Because you can make a difference!

Almost everyone during their life will know someone who needs a blood transfusion. They may be car accident or trauma victims, cancer or transplant patients, or people with sickle cell disease or other blood disorders. There is no substitute and still only one source of blood for transfusion—volunteer blood donors.

This guide will provide you with information about measures you can take before, during, and after donation for a good experience.

Learning more about blood donation and knowing what to expect should improve your donation experience.

What Happens During the Blood Donation Process?

1. Registration

- Remember to bring your ID, and if required, the signed parental consent form.
- Bring the names of medications that you are taking.
- Bring a list of the places you have traveled outside the U.S. and Canada in the last 12 months.
- Read the educational materials about donating whole blood or apheresis.
- Ask Red Cross staff if you have questions.

2. Health History and Mini-Physical

- You should feel healthy and well, and meet other criteria.
- We will take your temperature, check your blood count, and measure your blood pressure and pulse.
- We will ask you questions during a private and confidential interview. This protects your health and the safety of patients who receive blood transfusions.

3. Donation

- We will cleanse an area of your arm and insert a needle to draw whole blood.
- You can relax, listen to music, talk to other donors, or read while the blood is collected.
- After the collection, a staff member will remove the needle and place a bandage on your arm.

4. Refreshments

- You should spend 15 minutes or more enjoying refreshments in the refreshment area.
- If you become dizzy or lightheaded, stay in the refreshment area and tell a staff member immediately.

What Should I Do to Prepare?

Before Donation

Sleep: Get at least 8 hours of sleep the night before your donation.

Eat: Eat a healthy breakfast or lunch—both if your appointment is later in the day.

- Don't skip meals on the day of a donation.
- Make healthy food choices. Eat proteins (lean meat, cheese, and yogurt) or complex carbohydrates (bread, cereal, and fruit).
- Eat a well-balanced diet with plenty of foods that are rich in iron and vitamin C. Iron-rich foods include red meat, fish, poultry, beans, iron-fortified cereals, and raisins.

Drink: Drink a few extra glasses of water or fluids in the days before you donate. Start the day with a bottle of water or a glass of orange juice. If you drink water within 10-30 minutes before donation, you may be less likely to experience dizziness and lightheadedness.

During Donation

Most people relax during donation and feel fine afterwards. Sometimes it helps to think about something else to distract your attention from the blood being drawn.

You may also be told to try a simple technique to tense and relax the muscles in your legs:

- Lift your legs (one at a time) off the donor bed.
- Hold for a few seconds, then repeat.
- Breathe normally.

If you practice this technique to tense and relax the muscles in your legs during the donation, you may be less likely to have a reaction.

Tell Red Cross staff immediately what you are experiencing, and they will take care of you. There are ways to help prevent or limit discomfort with donation.

After Donation

Be sure to sit and relax in the refreshment area for 15 minutes or more and have a drink and a snack. Afterward, drink a few glasses of fluids to stay well-hydrated.

Most donors have uneventful donations and feel good about donating. Some people may experience lightheadedness, dizziness, or an upset stomach that resolves soon after donation. Less commonly, a donor may faint after blood donation. If you feel faint, stop what you are doing and sit or lie down until you feel better.

Call the American Red Cross toll-free number provided to you after your donation if you have questions or concerns.

**American
Red Cross**

HOPE begins with you.

Student Athletes

Student athletes should not do any heavy lifting or vigorous exercise for the rest of the day. You temporarily lose fluid after donation, which your body replaces within 24 hours or sooner if you drink extra fluids. As a precaution, do not donate blood on the same day of a competition or strenuous practice.

After a whole blood donation, your body replaces the red blood cells (the cells that deliver oxygen to muscles and tissues) within about 5 weeks, depending on nutrition and iron status. High-performance competitive athletes may notice a marginal decrease in exercise tolerance for about 1 week after a whole blood donation.

Plan ahead to best schedule your donation with sports and other activities.

Additional Information for Parents and Students

Parental permission is required for all donations by 16-year-olds and for donations by 17-year-olds as required by state law or sponsor. In order to provide informed consent, parents must go to <https://www.redcrossblood.org/donate-blood/how-to-donate/info-for-student-donors.html> and read "Possible Use of Donor Information and Blood Samples in Medical Research" and the research study sheets for your state. For those with no internet access, please call the Donor and Client Support Center at 1-866-236-3276 for information regarding research studies in your state.

It is recommended that females under the age of 19 not donate Red cell apheresis, also known as "power reds." Red cell apheresis donations are limited to male donors under the age of 19.

When parental consent is required, we will need a signed consent form for each donation. Most donors have uneventful donations and do fine afterwards. Some donors may become lightheaded or dizzy during or after the donation or may faint or experience injury requiring additional medical care. Young, first-time, and low-weight donors are more likely to experience reactions than other donors.

Donating blood, particularly red cells, removes iron from the body. Healthy iron levels are important for overall health, physical and mental development, and help to maintain strength and energy. Low iron, also known as iron deficiency, may lead to health problems, including anemia (not enough red blood cells or hemoglobin). To help replace the iron lost by blood donation, we recommend taking a multivitamin with 18 mg of iron or iron supplement with 18-38 mg of elemental iron for 60 days after each whole blood donation and for 120 days after each red cell apheresis donation.

For more information about iron and healthy blood donation, please visit our website at <http://www.redcrossblood.org/iron>. If a donor chooses to take iron, we recommend that the donor tell their health care provider.

Every donation is tested for HIV (the virus that causes AIDS), the hepatitis B and hepatitis C viruses, and other infectious diseases. If any test result or response to a donor screening question suggests that the donor is disqualified from donating blood in the future or may have an infectious disease, their donor record will be marked accordingly. When required, we report donor information, including test results to health departments and regulatory agencies.

The infectious disease tests are very sensitive and specific, but it is possible that donors who are not infected will have false positive results. We are required to notify and disqualify donors even if subsequent test results indicate a donor is not infected.

Whole blood and red cell apheresis (power red) donors will also be tested for ferritin, a test for iron stores. Donors will be notified of ferritin test results outside our acceptable ranges.

We will communicate test results directly with the donor. We maintain the confidentiality of information we obtain about a donor and we will release a donor's confidential information to his or her parents or guardian only with the donor's consent.

We may use information or residual blood samples we collect from donors confidentially and anonymously for medical research. Examples of this type of research include studies to increase the safety of the blood supply.

If you have questions about blood donation, please contact the American Red Cross.

Form: Parental Consent for Blood Donation

Information

This form must be completed by a parent or legal guardian. Parental permission is required for

- All donations by 16-year-olds
- All donations by **any age student** at high school blood drives in Utah
- Donations by 17-year-olds as required by state law or blood drive sponsor

Before giving consent, please read the information on the back of this form and "A Student's Guide to Blood Donation." You should also read "Possible Use of Donor Information and Blood Samples in Medical Research" and the research study sheets for your state, which can be found at <https://www.redcrossblood.org/donate-blood/how-to-donate/info-for-student-donors.html>. If you do not have internet access, please call the Donor and Client Support Center at 1-866-236-3276 for relevant information regarding research studies.

Before donating blood, your child will read "What You Must Know Before Giving Blood," which describes the blood donation process. It explains the importance of accurate and honest answers to health history questions, what happens when a person gives blood, and tips for having a positive donation experience. It also explains why the Red Cross asks questions about sexual contact and identifies profiles of persons who should not donate (because of physical conditions, travel to certain countries, or high-risk behavior). "What You Must Know Before Giving Blood" contains explicit language defining "sexual contact." A copy of this document is on file and available for viewing at your child's school.

Please call us at **1-800-RED-CROSS (1-800-733-2767)** or visit www.redcrossblood.org if you have questions or concerns about the blood donation process.

Information for Parents

Thank you for allowing your son, daughter, or ward to donate the gift of life. Please read the information below in addition to "A Student's Guide to Blood Donation," "Possible Use of Donor Information and Blood Samples in Medical Research," and any specific research-related study sheets.

A Healthy Approach to Donation

Healthy habits can improve the donation experience. Blood donors should eat a nutritious, well-balanced diet containing foods rich in iron and high in vitamin C. Before a blood donation, blood donors should get enough rest, eat a good meal, and drink plenty of fluids. After donating, we recommend that some donors, including donors 16 to 18 years old, take a multivitamin with iron to help replace the iron lost during their blood donation. We hope that a positive donation experience encourages your teen to become a lifelong donor!

Donor Screening

- We will conduct a confidential interview in which we will ask your son, daughter, or ward questions about his or her health and medication use, sexual behavior, travel, and other risk factors for infectious diseases.
- We will test every donation for HIV (the virus that causes AIDS), hepatitis B and hepatitis C viruses, and other infectious diseases.
- If any test result or response to a donor-screening question suggests that your son or daughter is disqualified from donating blood in the future or may have an infectious disease, we will mark his or her donor record accordingly. When required, we report donor information, including test results, to health departments and regulatory agencies.
- The tests are very sensitive and detect most infections, but it is also possible that donors who are not infected will have falsely positive results. We are required to notify and disqualify donors even if subsequent test results indicate the donor is not infected.
- Whole blood and red cell apheresis (Power Red) donors will also be tested for ferritin, a test for iron stores. Donors will be notified of ferritin test results that are outside our acceptable ranges.
- We will communicate test results that disqualify a donor from future donation directly with the donor. We maintain the confidentiality of information we obtain about a donor and we will release a donor's confidential information to his or her parents only with the donor's consent.

Whole Blood Donation

- Each donation uses a new, sterile needle to collect about a pint of blood from a vein in the donor's arm.
- Most donors feel fine before and after donating blood, but some donors may have a lightheaded or dizzy feeling; an upset stomach; a black and blue mark, redness, or pain where the needle was inserted; fainting or loss of consciousness and injury from related falls; or very rarely, nerve or artery damage. Young, first-time, and low-weight donors are more likely to experience reactions than other donors.
- Iron is lost through blood donations. Low iron, also known as iron deficiency, may lead to health problems, including anemia (not enough red blood cells or hemoglobin). Healthy iron levels are important for overall health, physical and mental development, and maintaining strength and energy. To help replace iron lost through blood donation, we recommend that some donors, including donors 16 to 18 years old, take a multivitamin with 18 mg of iron for 60 days after each whole blood donation or for 120 days after each Power Red donation.
- For more information about iron and a healthy blood donation, please visit our Web site at <http://www.redcrossblood.org/iron>. If a donor chooses to take iron, we recommend that the donor tell his or her health care provider.

Apheresis

- Apheresis is a type of automated blood donation procedure in which we collect specific components of the donor's blood. We place a new sterile needle in one or both of the donor's arms and use a machine to draw blood and separate it into different parts. The desired blood components are removed while the remainder and extra fluids are returned to the donor.
- Apheresis has the same risks as whole blood donation (see above). In addition, citrate, used during apheresis to prevent blood clotting, may cause chills, tingling sensations, feelings of anxiety, tremors, muscle cramping, numbness, nausea, vomiting, and/or convulsions. Donors may be given oral calcium supplements during the apheresis procedure to manage these symptoms. Very rarely, donors can experience allergic reactions (for example, skin rashes, hives, localized swelling, and/or flushing), air in the bloodstream, infection, or other complications.
- Red cell apheresis, also known as "Power Reds," is used to collect red blood cells. Red cell apheresis is not recommended for 16- and 17-year-old females. Red cell apheresis donations are limited to 16- and 17-year-old male donors. As with whole blood donation, iron is lost through apheresis donation. See "Whole Blood Donation" for information about iron and iron replacement.
- Apheresis can also be used to collect platelets or plasma. Repeated donation may result in iron depletion. The iron loss in five platelet or plasma apheresis donations is approximately equivalent to the iron loss in one whole blood donation. See "Whole Blood Donation" above for recommendations on iron replacement.

Research

- We may confidentially and anonymously use the information or leftover blood samples we collect from donors for medical research, such as research on ways to increase the safety of the blood supply.
- By giving your son, daughter, or ward permission to donate blood, you are also consenting to the use of the donation and donor information for this type of research.
- In order for you to provide informed consent, you must go to <https://www.redcrossblood.org/donate-blood/how-to-donate/info-for-student-donors.html> and read "Possible Use of Donor Information and Blood Samples in Medical Research" and the research study sheets for your state before signing this parental consent. If you do not have internet access, please call the Donor and Client Support Center at 1-866-236-3276 for information regarding research studies being performed in your state.

Nondiscrimination Policy

It is the policy of Business Professionals of America that no person on the basis of race, color, religion, national origin or ancestry, age, sex, marital status, sexual orientation or disability shall be discriminated against, excluded from participation in, denied the benefits of, or otherwise be subject to discrimination of any program or activity for which is responsible.

Publication, Promotional Release, and Use of Images and Materials

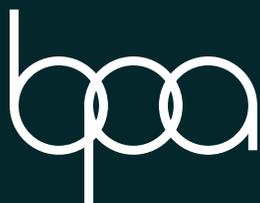

You understand and acknowledge that, in conjunction with your participation in the NLC, BPA may capture photos, video, and other recordings of participants before, during, and after events at the NLC. You expressly authorize BPA and grant to BPA, without further consent, an irrevocable limited license to use, display, and reproduce any and all photos, video and/or other recordings of you captured before, during and after events at the NLC by BPA in any medium or format. You acknowledge and agree you have no right to review or approve such materials before they are used, displayed, or reproduced. BPA may, but is not required to, use, display, and reproduce such photos, video, and other recordings of you in future print materials, online materials (including the BPA website and its official social media accounts), signage, slideshows, podcasts, videos, and other uses in physical and digital forms. Event Participation Assumption of Risk, Release and Waiver

An inherent risk of exposure to COVID-19 exists in any public place where people are present, even with the use of personal protective equipment and social distancing. COVID-19 is an extremely contagious virus that can lead to severe illness and death. Although Business Professionals of America (“BPA”) has implemented necessary and appropriate safety and sanitation measures, attendance at the National Leadership Conference (“NLC”) may be hazardous and involve an unavoidable risk of illness due to contact with or proximity to people or things exposed to the coronavirus. By attending the NLC with the express understanding of such potential hazards, you knowingly and voluntarily acknowledge and assume the risk of such hazards. You expressly waive and release, to the fullest extent permitted by the law, any and all claims and potential causes of action, of any nature, against BPA on account of any and all injury, illness, and/or death arising out of or attributable to attendance at the NLC, COVID-19 related or otherwise. You understand and acknowledge that BPA, its adult leaders and representatives may not be present at all times during NLC and cannot guarantee your safety or mitigate all risks involved in your participation in the NLC. Attendees should, at all times, follow BPA staffs’ instructions and use their best judgment. BPA is not responsible for lost, stolen, or damaged property.

Social Media Use

BPA encourages members to use social media in productive and positive ways. Malicious use of social media will not be tolerated. Malicious use may include, but is not be limited to, photos, videos, or comments that are unprofessional, derogatory, demeaning, incriminating, or threatening toward any other individual or entity (e.g., derogatory comments regarding conference properties, taunting comments aimed at another BPA member, and derogatory comments against race and/or gender); photos, videos, or comments that depict or encourage unacceptable, violent or illegal activities (e.g., hazing, sexual harassment/assault, gambling, discrimination, fighting, vandalism, academic dishonesty, underage drinking, or illegal drug use). BPA will not tolerate any type of inappropriate behavior from any individual involved, engaged, or associated with BPA or participating in any BPA activities on the local, regional, state, and national level. Anyone found violating this policy may be expelled from the event or conference, and their membership can be terminated. If necessary, appropriate legal actions may be taken. BPA reserves the right to modify the consequences, as appropriate.
